Skills

Languages: Javascript, Typescript, HTML, CSS, SQL
Frontend: React, Next.js, Angular
Backend: Node.js, Express.js, NestJS, REST APIs, Kong API Gateway
Cloud: AWS (Lambda, ECS, S3, EventBridge, CloudFront, Aurora, KMS, CloudFormation), CI/CD, Docker
Data: PostgreSQL, SQL Server, Redis, Kafka
Tools: Datadog, GitHub, Insomnia, VS Code

Professional Experience

Senior Software Developer

March 2026 - Present

Software Developer

June 2024 - March 2026

Crum & Forster - Morristown, NJ

Promoted to Senior Developer within 2 years for exceeding goals and strong delivery ownership.

- Led the implementation and MVP delivery of a new internal **React, Next.js, Node.js, NestJS, and TypeScript** web application, partnering with business analysts and data architects to deliver scalable backend integrations, REST APIs, and AWS deployment workflows.
- Implemented and supported **disaster recovery strategy across AWS multi-region environments**, improving resilience and ensuring continuity for production workloads during regional failover scenarios.
- Engineered secure **authentication and authorization flows** using **AWS Cognito** with **SRP-based authentication** and **MFA**, meeting state compliance requirements ahead of deadline with zero disruption to user access.
- Modernized document generation by replacing Duck Creek-dependent workflows with an internal platform, building dynamic forms and reusable rendering pipelines that eliminated reliance on third-party document generation services, simplified ongoing maintenance, and improved long-term platform maintainability.
- Developed and maintained cloud infrastructure using **AWS CDK**, provisioning and deploying ECS services, Lambda functions, Aurora PostgreSQL, IAM roles, KMS, S3, AppConfig, and CodeBuild pipelines across development, UAT, and production environments.
- Diagnosed and resolved production issues using **Datadog**, CloudWatch, and **Claude**, accelerating root-cause analysis and minimizing downtime across production applications and CI/CD deployments.

Junior Associate

August 2019 - March 2020

Infosys - Richardson, TX

- Diagnosed and resolved defects in Java and Angular applications, improving application stability and meeting project deadlines.
- Collaborated with cross-functional teams to implement Robotic Process Automation solutions that streamlined operational tasks and improved efficiency.
- Recognized by management for effective troubleshooting and delivering quality fixes under tight timelines.
- Participated in code reviews and knowledge sharing sessions to support team learning and process improvements.

Education

Bachelor of Science in Computer Science

Graduated: December 2023

Southern New Hampshire University - Manchester, NH

GPA: 4.0
